

Natural Life

Breaking Benjamin

Hold still All of my life
All of my time
I don't wanna come back around tonight
And all that I need
Is serenity
I don't wanna feel your new disease The natural life
You're born, you die
The natural life
You're wrong, you're right
The natural life
You're born, you die
The natural life's a lie All of my lies
Swallow your pride
I don't wanna come back around tonight
And all that I need
Is serenity
I don't wanna feel your new disease The natural life
You're born, you die
The natural life
You're wrong, you're right
The natural life
You're born, you die
The natural life's a lie Right
You're right When you're right
I can never lie
Let me go
Try to find a home
An' I can't wait
Try to stay awake
Dead inside
Bothered by the lie
When you're wrong The natural life
You're born, you die
The natural life
You're wrong, you're right
The natural life
You're born, you die
The natural life's a lie A lie
Lie
