

# I'm Not Dead, I'm Sleeping

## Astorian Stigmata

My head don't screw on like it used to  
And I'm ashamed of my calloused heart  
If you made a world inside your head  
And your castle walls are high  
Then I'd say  
Listen up, tear em down  
Listen up, burn it down

Hey, I said don't talk to me!  
But your mouths still moving  
And all of my friends now  
They think I'm dead  
They think I'm dead  
But I'm just sleeping in my head

When my soul starts to dance  
And it finds it's rhythm  
Then my heart changes the beat  
(Please fucking stop)  
I fall asleep every night  
Just to never wake up the same  
This is getting old  
This is getting old  
Listen up, I've had enough  
Listen up, I've had enough

Hey, I said don't talk to me!  
But your mouths still moving  
And all of my friends now  
They think I'm dead  
They think I'm dead  
But I'm just sleeping in my head

You've got a big heart  
But it don't love no one  
Cause you keep it locked away  
And an open heart  
Can be a tragic mistake  
But there is no other way

And an open heart  
What a open wound  
But there is no other way

So hey, come talk to me!  
Let your mouth start moving  
And all of my friends now  
They think I'm dead  
They think I'm dead  
But I'm just sleeping in my head
