In Between

My American Heart

The lights go on
The scene is overcrowded
It takes my mind away
It takes my mind awayThey raise their hands
It's time to give it all we've got
It helps me to forget
It helps me to forgetEverything I said I wanted
Everything I said I need
Left me here to wait for you
And now I'm stuck here in betweenThe light is dark
I'm in a distant memory
Was it real or just a dream?
Was it real or just a dream?I count the weeks
The days, the hours, still I'll be
Be alone with you
Be alone with youEverything I said I wanted
Everything I said I need
Left me here to wait for you
And now I'm stuck here in betweenIf I had another chance
If I could do this all again
I don't know how I'd change a thing
I'd still be stuck here in betweenI see the way you stare
So easy love in fell
The skies don't bleed anymore
The skies don't bleed anymoreEverything I said I wanted
Everything I said I need
Left me here to wait for you
And now I'm stuck here in betweenIf I had another chance
If I could do this all again
I, I don't know how I'd change a thing
I'd still be stuck here in between, in between
