Pets

Christa Larson

Pets, pets so many pets
I love every animal I ever met
Pets, pets I love my pets
I love to pet my pets you bet!

My turtles named Myrtle
My dogs named Frog
Got a goldfish who hides inside a log
My cat's so flabby when you tickle her belly
She lies on her back and rolls like jelly

Pets, pets so many pets
I love every animal I ever met
Pets, pets I love my pets
I love to pet my pets you bet!

Lily's my bunny, he's so funny when he munches
Carrots are the tops so he eats them in bunches
Harry the hamsters new in town
He can't go far but he runs round and round

Pets, pets so many pets
I love every animal I ever met
Pets, pets I love my pets
I love to pet my pets you bet!

I feed em and I wash em
I never treat them mean
But I'm the one who gets all wet
When I try to them keep them clean-o

Pets, pets so many pets
I love every animal I ever met
Pets, pets I love my pets
I love to pet my pets you bet!

(Play it boys!)

All my little bunnies love Minnie and me
We'll all together with good company

It's a big responsibility but that's okay
When my friends come over we love to play with my...

Pets, pets so many pets
I love every animal I ever met
Pets, pets I love my pets
I love to pet my pets you bet!

Pets, pets so many pets
I love every animal I ever met
Pets, pets I love my pets
I love to pet my pets you bet!

"I love my dog. I love my cat. Let's see, I love my goldish. I have an ant farm. I have a spider, a tarantula. I have a Golden Retriever."
