

Love Sea

Alphabeat

I am coming down

I was in the dark til the summer Together we have a chance to start out the dance I'm falling
And in the burning sun to show everyone, head out the storm.

I was coming down

I was in the dark til the summer One two three, you're in love with me

Oh oh

It's imagination

Three four five, way we dive

Oh oh oh oh oh oh Come on closer, uh uh uuuh

Come on close to me

Jump up on me

Jump in the sea

jump up in

Jump with me

Jump up in

The love sea will be We be hanging out somewhere in the clubs forever Play my favorite shoes, just set by the
Moon together As good as it feels, can't be real

Too good to be true, I was coming down

I was in the dark til the summer One two three, you're in love with me

Oh oh

It's imagination

Three four five, way we dive

Oh oh oh oh oh oh Come on closer, uh uh uuuh

Come on close to me

Jump up on me

Jump in the sea

jump up in

Jump with me

Jump up in

The love sea will be In the tropical paradise

Love can be as cold as ice, oh oh

In the acres of long ago

Stays the feeling I wanna know oh oh Jump up in

Jump in the sea

Jump up in, uh oh oh

Come on closer, uh uh uuuh

Come on close to me

Jump up on me

Jump in the sea

Jump up in
Jump with me
Jump up in
The love sea will beWooh oh oh
