Take Me Home

Helloween

Yeah
Now I'm here all alone
Takin' care of my own
Down in no man's land
Got no friends, got no dime
Only plenty of time
Where's the saving hand?
I got that feelin' to need more and more attention
I got that fever, don't leave me alone
I got that feelin' to make more than conversation
That is the fever, where's my home?
Take me home
Take me home
Take me home
It's not truth what you see
Behind the mask that's not me
Try to reach my world
Can't you see, I'm so blind
Stay with me to change my mind
No more nightmares girl
I got that feelin' to need more and more attention
I got that fever, don't leave me alone
I got that feelin' to make more than conversation
That is the fever, where's my home?
Take me home
Take me home
Take me home
I got that feelin' to need more and more attention
I got that fever, don't leave me alone
I got that feelin' to make more than conversation
That is the fever, where's my home?
Take me home
Take me home
Take me home
...
