Illisit

Skinny Puppy

a police state invents you
they give you a name
your birthright connects you
to a number and age
they see through the mountain
master and stirred
a futile state connects us
this is the criminal age...(criminal age)
the threat is aside us
no back breed blame
so we are the suspect
again and again
the terrorist is suspect
a terrorist is blame...(criminal age)
we're the receivers...(criminal age)
living a game...(criminal age)
this is the criminal age...(criminal age)
(feeling all the blame,we are the receivers)
the terrorist is suspect...(criminal age)
we're the receivers...(criminal age)
this is the criminal age...(criminal age)
this is the criminal age
