

# Heaven Lost An Angel

[Zendaya](#)

I'm walkin' like a model  
He watchin' like Movado  
And we up like where the space is  
Get down like where the bass is  
Yo forreal though, you know the deal though  
You're so hot I'm so froze  
Got my heart in a chokehold  
Love on overload Real recognize real  
And I know that's what you are  
Like a hundred dollar bill  
Quite frankly, I've been waitin' to spend time wit ya  
Time wit ya Somebody turn the lights down, For me  
Don't take your eyes off of me  
So keep your eyes all over me  
Somebody turn the lights down, For me  
The only place I need to be  
Is right here with you next to me  
Next to me And I know, I know, I know  
Heaven lost an angel, Tonight  
And I know, I know, I know,  
Heaven lost angel 'cuz you're right here, yea, right there  
(Next to me, next to me, next to me, next to me)  
Heaven lost an angel 'cuz you're right here, yea, right there  
(Next to me, next to me, next to me, next to me)  
Heaven lost an angel, Tonight I hope you're the one, (If not)  
If not I need 'em just like ya (Not I need 'em just like ya)  
I know God was having fun  
When he was spendin' all that extra time on ya  
(Spendin' all that extra time on ya) Can somebody turn the lights down, For me  
Don't take your eyes off of me  
So keep your eyes all over me  
Somebody turn the lights down, For me  
The only place I need to be  
Is right here with you next to me  
Next to me And I know, I know, I know  
Heaven lost an angel, Tonight  
And I know, I know, I know,  
Heaven lost angel 'cuz you're right here, yea, right there  
(Next to me, next to me, next to me, next to me)

Heaven lost an angel 'cuz you're right here, yea, right there  
(Next to me, next to me, next to me, next to me)  
Heaven lost an angel, Tonight I'm walkin' like a model  
He watchin' like Movado  
And we up like where the space is  
Get down like where the bass is  
Yo forreal though, you know the deal though  
You're so hot I'm so froze  
Got my heart in a chokehold  
Love on overload And I know, I know, I know  
Heaven lost an angel, Tonight  
And I know, I know, I know,  
Heaven lost angel 'cuz you're right here, yea, right there  
(Next to me, next to me, next to me, next to me)  
Heaven lost an angel 'cuz you're right here, yea, right there  
(Next to me, next to me, next to me, next to me)  
Heaven lost an angel, Tonight
