

Summer

Kansas

When we think back to what we shared
Well, it takes us to a time so long ago, we still remember
 We weren't making any plans
 and our future lay in diagrams
 beyond that winding highway
 How were we supposed to know
 that our time would come and go so fast
and we'd be racing in timeChorusWe'll never forget all the things that we shared
 The way that we felt, as we stood there
 The paths that we chose left us distant and free
 Be we'll never forget that summer
We'll never forget that summerWe reflect as time has passed
 We could never let ourselves forget
 the time we spent together
 We held magic in our hands
 and out hopes became as one
The lessons learned will last foreverPainful but we all moved on
 And the memories kept us strong
and we just tried to ride out the winterChorusPainful but we all moved on
 The memories kept us strong
 and we just tried to ride out the winterChorus
We'll never forget all the things that we shared
 The way that we felt as we stood there
 The paths that we chose left us distant and free
 But we'll never forget that summer
 I'll never forget that summer
