

# High

## Splendor

Why do I feel like a newborn child?  
Why do I feel like a silver dollar?  
Why do I feel like a newfound drug?  
Why do I feel like I wipe my borders? What do I look like  
(High)  
What do I feel like  
(High) What do I taste like  
(High)  
What have I come to  
(High) All the love in this world  
(Doesn't mean a thing to me)  
All the love in this world  
(Doesn't mean a thing to me) Why does it feel like you're in my veins?  
Why does it feel like you're in my moment?  
Why does it feel like you cure my pain?  
Why does it feel like my eyes are open? What do I look like  
(High)  
What do I feel like  
(High) What do I taste like  
(High)  
Where will it get me  
(High) All the love in this world  
(Doesn't mean a thing to me)  
All the love in this world  
(Doesn't mean a thing to me)  
'Cause all your love in this world  
(Is the only thing I need) Why does it feel like you're in my head?  
Why does it feel like you read my story? What do you feel like  
(High)  
What do you taste like  
(High) What's on the inside  
(High)  
Where does this get me  
(High) All the love in this world  
(Doesn't mean a thing to me)  
All the love in this world  
(Doesn't mean a thing to me)  
'Cause all your love in this world  
(Is the only thing I need)
