

# Sitting with the Dog

## Jimmie's Chicken Shack

Well, I will take each step very carefully  
And I will make no decisions now  
And these are the right words to say  
Are these all the right words to say  
Just get up or be on your way But you're sitting with the dog, I follow a backwards God  
Sitting with the dog, I follow a backwards God  
Sitting with the dog, I follow a backwards God  
Sitting with the dog, I follow a backwards God I'm dumb and I'm ugly and I am uncreative  
Dumb and ugly and uncreative  
And these are the right words to say  
Are these all the right words to say  
Just get up or get out of my way But you're sitting with the dog, I follow a backwards God  
Sitting with the dog, I follow a backwards God  
Sitting with the dog, I follow a backwards God  
Sitting with the dog, I follow a backwards God Here's to another breath for the hole in the sky  
Here's to another breath for the hole in the sky  
Here's to another breath for the hole in the sky  
Here's to another breath And we're sitting with the dog  
Sitting with the dog  
Like a bump upside a log  
Yeah, I'm sitting with the dog
