## Oldelaf

I don't like young girls
I don't like boys
I like some bitch to scare me
I like that noiseI don't like secrets
I don't like God
I don't like people
When they say I'm things I'm notI don't need opinions and rumours
I don't need a voix in the dark
I don't need to listen to strangers
I don't need to tear out my heartOne stranger
One heartbeat
One love is
Forever
One picture
One morning
One tear lasts
ForeverI like this motion
I like this heat
I like this breathing
And I know I like this beatI like your whispers
I like your screams
I like your lies
And I'm sure I'd like your dreamsYou don't need opinions and rumours
You don't need a voix in the dark
You don't need to listen to strangers
You don't need to tear out your heartI'll show you pictures
I'll make you cry
I'll show you things you've done
And then I'll ask you whyI don't need heroes
I don't need this name
I don't need favours
And I know I don't need fameWe don't need opinions and rumours
We don't need a voix in the dark
We don't need to listen to strangers
we don't need to tear out our heartsOne reason
One secret
One lie is
Forever
One nightmare

One rumour
Your shame is
Forever
