

Ahoy

Of Monsters and Men

I know that I'm wrong
And now we're both sitting in silence
But if it's alright I'll wrap myself around your cold shoulder
You think you know me
But do you really?
Something you do, something you say
We don't talk about it
You think you know me
But do you really?
There's something about you
There's something about you
A bull without horns
I said nothing, so how come I'm blushin'
And though you are warm
The cold lingers on the tip of your fingers
You think you know me
But do you really?
Something you do, something you say
We don't talk about it
You think you know me
But do you really?
There's something about you
There's something about you
Oh, you couldn't change this mountain
Got me here chasing the sound but I just hear fractions
Oh, you couldn't change this mountain
Got me here facing the sun but I just need direction
You think you know me
But do you really?
Something you do, something you say
We don't talk about it
You think you know me
But do you really?
There's something about you
There's something about you
