# Swing Set

## Moving Mountains

Crusing through the city with the windows down blowing through a pound ready for another round
some h*es in the back of the whip and they rollin servin pu**y like the U.S Open blowin on this
potent different flavors i done saw em all i bee stayin higher than the taj mahal straight epic
so now you cant forget it kickin girls out the crib like they got some bad credit when you blowed

and you drunk and you dont give a fu*k take this soul and this funk tell the Dj turn it up purple
stuff got it stirrin in my cup while ho*es i get around like the wheels on the bus im'a true player
original mac and i keep the pu**y poppin here listen to that h*es showin me some love so im givin
