Somewhere Out There

Our Lady Peace

Last time I talked to you, you were lonely and out of place
You were looking down on me lost out in space
We laid underneath the stars, strung out and feeling brave
I watched the red orange glow, I watched you float away
Down here in the atmosphere, garbage and city lights
You've gone to save your tired soul, you've gone to save our lives
I turned on the radio to find you on satellite
I?m waiting for this sky to fall, I?m waiting for a sign
All we are is all so far
You're falling back to me, you're a star that I can see, yeah
I know you're out there, somewhere out there
You're falling out of reach defying gravity, yeah
I know you're out there, somewhere out there
Hope you remember me when you're home sick and need a change
I miss your purple hair, I miss the way you taste
I know you'll come back someday, on a bed of nails I?ll wait
I?m praying that you don?t burn out or fade away
All we are is all so far
You're falling back to me, you're a star that I can see, yeah
I know you're out there, somewhere out there
You're falling out of reach defying gravity, yeah
I know you're out there, somewhere out there
You're falling back to me, you're a star that I can see
I know you're out there
Oh, you're falling out of reach, defying gravity
I know you're out there, somewhere out there
You're falling back to me, you're a star that I can see, yeah
I know you're out there, somewhere out there
You're falling out of reach, defying gravity, yeah
I know you're out there, somewhere out there
You're falling back to me
I know, I know
You're falling out of reach, oh
I know
