# I'm Not Driving Anymore (Remix)

## Rob Dougan

You tell me I can't slow down
you tell me where I've gotta be,
I spin into the darkness
but I swear that I can't see a thing in front of me
you know it's true. I'm not driving anymore
I can't keep up with you
you're closing in behind
I've got headlight in my eyes
don't you get too close to me
can't you see that we'll collide
and end up casualties
there's just no room
I'm not driving anymore
I can't keep up with you
so leave me on my own
run me down and race away (from me-distant)
I've got nowhere to go to
I don't think I can get back on my feet (back on my feet )
it came right out of nowhere
eyes wide and terrified
I can't put my brakes on
I can't swerve to save your life
'cause then I'll lose control
and I can't choose
I'm not driving anymore
I can't keep up with you
so leave me on my own
run me down and race away (from me-distant)
I've got nowhere to go to
I don't think I can get back on my feet (back on my feet)
get me out of harm's way
can't you see I'm paralyzed?
I wanna fade out gracefully
but you keep keeping me alive
to face another day
can't you see I'm through
I'm not driving anymore
I can't keep up with you
can't keep away(can't keep away-distant(3))tell me how long have I got

I wanna end this earthly toil
'til this diet life expires
I wanna go swimmin' in the soil
and not come up for breath
sit in God's room
I'm not driving anymore
I can't keep up with you
I'm unfit for consumption
I don't know how to play my part
I swear I'm all alone in this thing
a blind man driving my car
into oblivion, let it come soon
I'm not driving anymore
I can't keep up with you.
