

# Higher Sights

## Embrace

Silence is all that I have to say to you  
Mountains like me and you don't hear the rules  
About what we can or we can't do  
I don't want to learn if learning lets you  
Bring those eyes down with youIf you truly learn how to cover  
You won't forget how it's done  
And you go and give me a bug I can't beatStuck with the wrong in us inside me  
It takes its time but when it breaks free  
Break off those heels, twist till you leaveThen we'll dance  
Those plans we make won't last  
They'll wear and fade like fools  
Too young to run out of time  
We'll always set our sights highIf you truly learn how to cover  
You won't forget how it's done  
Then you go and give me a bug I can't beatStuck with the wrong in us inside me  
It takes its time but when it breaks free  
Break off those heels, twist till you leaveThen we'll dance  
Those plans we make won't last  
They'll wear and fade like fools  
Too young to run out of time  
We'll lose our way, we'll danceThose plans we make won't last  
They'll wear and fade like fools  
Too young to run out of time  
We'll always set our sight too high
