

What's Going On Here

Hootie & The Blowfish

Do you see heaven?
Like I do
Or is it just me
Wantin' you? Tonight I'm special
Like no one else
I hope you need me
For yourself Does it make you happy?
To be so free
The times we shared
You lovin' me But as you leave
An' walk away
Your eyes they tell me
Someday you'll stay What's goin' on here?
What must we wear?
To live in this fantasy land in your mind
Who'll carry the load
For dreams left untold?
Can you live in this world all mine? I'd walk this journey
To say goodbye
To have you close would
Make me high And all the good things
That made you see
It was the strong thing
Being with me What's goin' on here?
What must we wear?
To live in this fantasy land in your mind
Who'll carry the load
For dreams left untold?
Can you live in this world all mine? Just look high above
And you'll see where we should be
And if tomorrow makes us
And if tomorrow breaks us
Then you stand still and I'll
Show you me Like you never knew
Or is it just me
Wantin' you?
So as you leave and walk away
I knew you'd come back
Now let's play What's goin' on here?

What must we wear?
To live in this fantasy land in your mind
Who'll carry the load
For dreams left untold?
Can you live in this world all mine?What's goin' on here?
What must we wear?
To live in this fantasy land in your mind
Who'll carry the load
For dreams left untold?
Can you live in this world all mine?What's goin' on here now?
What's goin' on here?
What's goin' on here?
What must we fear?
What's goin' on here?
What's goin' on here?
