

# Don't Pull Out on Me Yet

TLC

Remember me?  
Well, if you don't  
I think after this song  
You will We got tonight all alone babe  
No distractions, no if and or maybe's  
Lately, we haven't had to time to  
Do the things we usually do I've been thinking 'bout something  
Real special for you  
And I want you to be good to me too  
Yeah I love it when you touch me  
Feelin' so good that it must be  
Right for you to love me  
And do all the things that I won't see I had a long day and my tension is strong  
Need a release baby, you turn me on  
Whatever you do, just don't stop  
So, oh oh oh So don't go too fast  
Make it a night that I won't forget  
Gotta make it last  
Gotta make it last Livin' the love that I haven't seen  
Awoke from the past  
Tonight is the night that you won't regret  
So baby, just don't pull out on me yet Love when you satisfy me  
I can tell it when you know my body  
Holdin' me closer to you  
Ain't gon' wait let me do what I do See I get a funny feelin'  
That makes me wanna share it  
Over and over again I love it when you touch me  
Feelin' so good that it must be  
Right for you to love me  
And do all the things that I won't see I had a long day and my tension is strong  
Need a release baby, you turn me on  
Whatever you do, just don't stop  
So oh oh oh So don't go too fast  
Make it a night that I won't forget  
Gotta make it last  
Gotta make it last Livin' the love that I haven't seen  
Awoke from the past  
Tonight is the night that you won't regret  
So baby just don't pull out on me yet Baby, baby, baby So don't go too fast

Make it a night that I won't forget  
Gotta make it last  
Gotta make it last Livin' the love that I haven't seen  
Awoke from the past  
Tonight is the night that you won't regret  
So baby, just don't pull out on me  
Don't pull out on me  
Don't pull out on me yet
