Ladanday

O.A.R.

Now Peter sat on the mountaintop
Northern wind blowin through his hair
Now Peter never took the time to stop
He just stood out there and stared
I said but Peter didn't care bout the air down there
He was lookin right at the sun
The sun said son don't ya come around here
And Peter then began to run
Hey
Now Peter he never cried too much
He just looked out toward the west
He was dreamin of a land that was way over there
And dreamin of what comes next
But Peter didn't care bout the air down there
He was lookin right out at the sun
And the sun said son come around here
So Peter started to run
He said ladandandandandandandanday (2x)
Now Peter started walkin down the mountain
Just runnin out toward the West
It was slippery like the water from a fountain
And Peter though that was best
Cause he slid down there to the town over there
And people just started to cry

But Peter didn't care about the air
And Peter was never shy
Ladanday (4x)
BRIDGE
Now he sang out loud to a unified crowd
Singing something bout he thought he was
But the crowd didn't care bout the air up there
And Peter wasn't nothin but nothin
But Peter didn't care he just looked over there
And the crowd was smilin back
He was singin to his heart and praying to his soul
That they would ask hime back
Ladandandandandandandanday (2x)
Now Peter

Was lookin round to the back
mountainside slipped from under his feet
He didn't really care bout the air down there
He just looked out at the sun
The sun said son don't ya come around here
So Peter then began to run
He said ladandandandandanday (4x)
