These Chains

Hot Chip

My love is kind to you
My love is blind for you
My love is right for you
I know it is, my boo
I save my eyes for you
I save my sight for you
I save my ears you
Do you hear me, my boo?
These chains you bound around my heart complete me, baby
I would not be free
These chains you bound around my heart complete me, baby
I would not be free

Explain the ball around my heart
It's not chain since we first made our start
Explain the ball around my heart
It's not chain since we first made our, we first made our
These chains you bound around my heart complete me, baby
I would not be free
These chains you bound around my heart complete me, baby
I would not be free
These chains you bound around my heart complete me, baby
I would not be free
