

# The autumn leaves

radast'

I woke under the cover of darkness  
Looked up into the television sky  
Tonight I wandered through the city alone  
This rain wouldn't stop  
I couldn't dry my eyes, I cried Who is the one to blame?  
Why is it that you never say  
When the feeling leaves  
If you're through with me? As I'm walking through the rain  
Cold tears crawling down my face  
Like the autumn leaves  
On a windy day I went to the edge of town  
Over by highways where the traffic  
Was the only sound, around While my eyes are looking at the ground  
I could see pictures of you  
Floating all around, I didn't die Who is the one to blame?  
Why is it that you never say  
When the feeling leaves  
If you're through with me? As I'm walking through the rain  
Cold tears crawling down my face  
Like the autumn leaves  
On a windy day Who is the one to blame?  
Why is it that you never say  
When the feeling leaves  
If you're through with me? As I'm walking through the rain  
Cold tears crawling down my face  
Like the autumn leaves  
On a windy day Who is the one to blame?  
Why is it that you never say  
When the feeling leaves  
If you're through with me? As I'm walking through the rain  
Cold tears crawling down my face  
Like the autumn leaves  
On a windy day Who is the one to blame?  
Why is it that you never say  
When the feeling leaves  
If you're through with me? As I'm walking through the rain  
Cold tears crawling down my face  
Like the autumn leaves  
On a windy day Who is the one to blame?

Why is it that you never say  
When the feeling leaves
