

# Come & Get It

## Official Selena Gomez

(Yeah...uh...motown...c'mon)

Come and get it

(3x's)

Girl don't be shy

Baby come and get it

Baby Baby

I've been watching you

watching me

secretly sending

tender kisses casually

across this crowded room

your man doesn't notice you

(heh, that's so wrong)

mmmm, i guess that's how it goes

Lady Lady

it's seems like he bores you to death

you need to escape

you need to enjoy yourself

ignore his wandering eyes

he doesn't realize

you're gonna make your move

Come and get it

The lovin' you want is in me

Come and get it

I will love you faithfully

Come and get it

Girl don't be shy

I swear you won't regret it

Baby come and get it

Tell me, tell me woman

If you'd like to pursue

Eternal pleasure

Hand delivered

From me to you

Fufill your fantasies

With 98 degrees (baby this is motown)

mmmm, that's how it's goin' down

So show me show me

Everything that you'll sacrifice

To come and get it  
Me I'm willin' to spend my life  
To keep you commin'  
Forever and always alright  
Starting with tonite  
Tonite, Tonite
