

God Where Are You?

[Sophia Gonzalez](#)

God Where Are You? Sophia Gonzalez

My plans they put me somewhere else
Somewhere I didn't really want to be
I cried for help, but through the night
I'm still alone in the morning light

It seems I'm always on my own
Looking around I find no hope
The world seems so empty to me
So much harder to believe

Refrain: I look for you to find my way
Where are you? Where are you?
I cry for you always in pain
Where are you?
God where are you?

The cold, cold silence of this place
I search around looking for grace
I lift my hand and no one's there
Please God, show me you really care (Refrain)

I really want to find you, I really do, I really do
I'm searching for your power please answer my prayer
Why aren't you there?

I cried for you, please end the pain
Where are you, Oh where are you
