

# If Only

Ciara

Baby boy, got your girl so deep in love  
You got me thinking about that ass on the wake-up  
Uhh

If only i could wake up, next to you  
Got me bushing, just i-magi-ning the things we would get in to When the thought of you and me arises  
Ain't no limit to what we could be  
Sitting on the deck ... named after us  
Ohooo If only you knew, if only you knew  
I'd be with you  
Ohoo

If only you knew, if only you knew  
I'd be with you I told myself next time i see ya, just gonna make it happen  
Thought i was ready, but i saw you and i choked now i'm  
Thinking to myself, 'cause i really need a boy like you  
'Cause baby you're so (you're so)  
I see myself as your wonder woman  
And i can't help but wait  
'Til the day you get with me, it won't be the last time  
That you give your heart away When the thought of you and me arises  
Ain't no limit to what we could be  
Picture us at a town,  
Clear waters on a sandy beach If only you knew, If only you knew  
I'd be with you  
Ohoo

If only you knew, only you knew  
I'd be with you, you, you 'Cause them other brouds, only front  
Only want you for, what you got  
'Cause what i want for myself  
Best believe that i can ...  
Oh

But this friendship thing, it's killing me  
And boy it is that i'm trying to be  
'Cause where i wanna be is with you  
And boy if you only knew  
Ohoo If only you knew, if only you knew  
I'd be with you  
Ohoo  
If only you knew, if only you knew  
I'd be with you

Baby if you knew, oh baby baby i'd be, i'd be, i'd be, with you  
If only you knew, if only you knew  
I'd be with you  
If only you knew, if only you knew  
I'd be with you  
If only you knew, if only you knew  
I'd be with youIf...
