

I Want You

Delain

Been trying to deny it
Oh what to do
When I'm such a fool for you I want you
So bad I want you
I want to hold you babe you look away what did I say?
I want you For better or for worse
I will make you mine
Each warm heart gets cold in time
No follow like a shadow
You won't get through
The web I have spun for you I want you
So bad I want you
I want to hold you babe you look away what did I say?
I want you
So bad I want you
I want each step you take I will not bend I will not break I want you bad
I want your innocence
I want your bitterness your loneliness
I want you (I want you) I want you bad
I want your innocence
I want your every breath in life or death I want you No-one could see it coming
A tragic day (a tragic day)
How did that car get in your way? I got you
At last I got you
She'll never see your face forever bound in my embrace I got you
At last I got you
She'll never send you thrills if I can't have you no-one will
