Moment

Crying Machine

I will wait for this moment
When our lips collide
And almost stop the earth
You're in my arms tonight
So I've come
To complicate the dead
Are you with me?
I've written out all my vows again
We're almost home
To see the silence break on New Year's Eve
We're only 17
So if love exists I will fall
I will wait for this moment
When our lips collide
And almost stop the earth
You're in my arms tonight
Just one more kiss
To soothe the pain exists
In a world of lies
Misery take my shame and life
And everything fails a violent death
The smile you gave
Visit me in hell tonight
And say, "If love exists, I will fall?
I will wait for this moment
When our lips collide
Almost stop the earth
You're in my arms tonight
I'll wait for this moment
When our lips collide
And almost stop the earth
You're in my arms tonight
So I'm not in love
So I'm, I'm not in love
So I'm, I'm not in love
So I'm, I'm not in love
I feel so alive
I feel so alive tonight
I feel so alive

I feel so alive, can't stop this feeling
So alive, I feel so alive tonight
I feel so alive
I feel so alive, can't stop this feeling
If love exists, I will fall
I will wait for this moment
When our lips collide
And almost stop the earth
You're in my arms tonight
I will wait for this moment
When our lips collide
And almost stop the earth
You're in my arms tonight
I will wait for this moment
When our lips collide
Almost stop the earth
You're in my arms tonight
