

Childhood Verse

Figurines

All alone, all alone
I love it, I love it, I lie
I love it, I love it, I lie We're alone from this day
I promise together we'll try
I promise together we'll try On your own, all alone
You love it, you love it, you lie
You love it, you love it, you lie What if we had a chance?
What if we had a chance? Will you get what you wanted
Get what you wanted in the afternoon?
Will you get what you wanted
Get what you wanted in the afternoon?
In the afternoon Falling trees, blocking an empty road
I promise together we'll die
Another will turn off the lights Move away, on our own
I love it, I love it, I lie
I love it, I love it, I lie What if we had a chance?
What if we had a chance? Will you get what you wanted
Get what you wanted in the afternoon?
Will you get what you wanted
Get what you wanted in the afternoon?
In the afternoon
