

One Heart's Beatin', One Heart's Cheatin'

[Billy Walker](#)

One heart is beatin' the other one's cheatin'
That's the way it always seems to be
In one heart there's romance
The other there is no chance
Two hearts can't be in love and disagree
I gave my heart while you played around
My love you desired
Till another heart you've found
Now one heart is beatin' the other one's cheatin'
You can't have a cheatin' heart and win
One heart is beatin' the other one's cheatin'
That's the way it always seems to be
