

Shine

Vanessa Amorosi

Shine, shine
Don't, don't, don't, don't you do it
Don't, don't, don't, don't you do it You say that you never had a mum
And nobody needs you, so cry, so cry
You believe that life rolls by just to deceive you
By your time, by your time You're getting old and the longer you take
The slower your pain will grow, it will grow, it will grow
You can close your eyes and hope that when you open them
You've got a brand new life, friend you'll find, you can't hide? You can give your life or you can lose your soul
You can bang your head or you can drown in a hole
Nothing lasts forever but you can try, look around you
Everyone you see, everyone you know is going to shine (Don't, don't, don't, don't you do it)
Shine, shine
(Don't, don't, don't, don't you do it) Grow up and make the best of what you've got
Of what you've got, of what you've got
The days are going by and you're sittin' on your ass
And you're wondering why, why, why, yeah You can give your life or you can lose your soul
You can bang your head or you can drown in a hole
Nothing lasts forever but you can try, look around you
Everyone you see, everyone you know is going to shine Don't, don't, don't, don't you do it
Don't, don't, don't, don't you do it You can bang your head or you can drown in a hole
Nothing lasts forever but you can try, well, look around you
Everyone you see, everyone you know is going to shine You say that you never had a mum
And nobody needs you, so cry, so cry, so cry
You believe that life rolls by just to deceive you
By your time, well, by your time Your getting old and the longer you take
The slower you'll pain will grow, it'll grow, it'll grow
You can close your eyes and hope
That when you open them you've got a brand new life You can give your life or you can lose your soul
You can bang your head or you can drown in a hole
Nothing lasts forever but you can try, look around you
Everyone you see, everyone you know is going to shine You can bang your head or you can drown in a hole
Nothing lasts forever but you can try, well, look around you
Everyone you see, everyone you know is going to shine Don't, don't, don't, don't you do it
Don't, don't, don't, don't you do it
Don't, don't, don't, don't you do it
Shine
