Scars

Battlecross

Now all of your secrets slip away into the night
Don't be afraid to let the buried see the light
Give up resistance don't conceal the pain inside
I'll just sit back and enjoy this ride
Spiraling deep into self-destructionI gauge the past by every scar that I have to bear
Reject the end embrace the beauty of your own demiseFight abandon secrets guiding you away from life
Remembering the memories inside your mind
This is the only way that they can stay alive
Release the horrors of your past
Spiraling deep into self-destruction
Reaching a new all-time low drowning your soul
I gauge the past by every scar that I have to bear
Reject the end embrace the beauty of your own demise
As I beg unto the light it never answers me
All I want is for this hell to die in meI gauge the past by every scar that I have to bear
Reject the end embrace the beauty of your own demise
