

# Sandcastles

[Jon English](#)

Oh, Your dark nights, hypnotize  
The look of love is in your eyes  
But somethin' tells me I've been takin' for a ride

Nights are lonely, telephone  
I'm callin' your number, there's no one home  
No suspicion - like suicide

Well I'm caught in the rain in a sand castle  
Tryin' to shelter inside, I ain't gonna live in a sand castle  
That's only gonna last till the next high tide

In the mornin' I'm lyin' in bed  
Thoughts of you are runnin' through my head  
It's hard to listen when someone is tellin' you lies

Confrontation, your crocodile cries  
Lipstick, glitter, gonna socialize  
I can't make it, I've given it too many tries

Well I'm caught in the rain in a sand castle  
Tryin' to shelter inside, I ain't gonna live in a sand castle  
That's only gonna last till the next high tide

I've been stepped on, fed up, your peckin' hen  
I ain't had no lovin' since I don't know when  
Laughin', cryin', playin' a game, livin' a lie and all the same

I'm talkin' to you now, come on baby, light my fire  
I need lovin' like a funeral pyre  
Somebody's talkin' and somebody called me liar

Well now, confrontation, your crocodile cries  
Lipstick, glitter, gonna socialize  
I can't make it, I've given it too many tries

Well I'm caught in the rain in a sand castle  
Tryin' to shelter inside, oh, I ain't gonna live in a sand castle  
That's only gonna last till the next high tide

Well I'm caught in the rain in a sand castle  
Tryin' to shelter inside, oh, I ain't gonna live in a sand castle  
That's only gonna last till the next high tide
