

Genius Envy

Teenage Fanclub

I don't care I don't wanna hear about what I'm thinking I wanna hear something new what's on my mind But I
know you always say And I know I'll always know that I'm not mine So what if you see other people I only get
jealous when I listen to The Beatles But I know you'll always be the one So go and get someone new And I
know you'll always be the one who's there who cares
