

# Copper Girl

## 3 Colours Red

Remember that girl  
Who changed your world some time ago  
A butterfly soul you tried to chase  
But eventually let go  
An in betweener would possibly beat her  
But I don't think so  
Around she goes stuck in your memory  
Her voice echoes  
Oh oh, I will wait for that copper girl  
Oh oh, I will wait for that copper girl  
Remember that girl  
Who changed your world some time ago  
A butterfly soul you tried to chase  
But eventually let go  
An in betweener would possibly beat her  
But I don't think so  
Around she goes stuck in your memory  
Her voice echoes  
Oh oh, I will wait for that copper girl  
Oh oh, I will wait for that copper girl  
Oh oh, I will wait for that copper girl  
Remember that girl  
Who changed your world some time ago  
Then she flew away  
But she never did quite go  
Oh oh, I will wait for that copper girl  
Oh oh, I will wait for that copper girl  
Oh oh, I will wait for that copper girl
