

# Spoil You (feat. T.I.)

## Boosie Badazz

Boosie Badazz, TIP, every woman wanna be spoiled I know you got wants, I know you got needs

I know you got plans, and I know you got dreams

Know you got a man that you probably wanna leave

But tell me girl, do you know what rubber bands means?

Girl let me spoil you, let me spoil you

Girl let me spoil you, let me spoil you

Girl let me spoil you, let me spoil you

Girl let me spoil you, let me spoil you New Celine purses, girl I know you're worth it

I'm the one you looking for, there's no need for you searching

For dudes who are worthless, you got a special person

But he ain't doing what he 'posed to do, spoil you

Just point to where you wanna go, tell me what you wanna do

Wanna get in school, I got hookups, all at LSU

Tell the truth, you tired of hitting the mall, window shopping

Deep inside you really want somebody really got it

I really got it and I'm really tryna call you

Take you shopping, girl I'm really tryna spoil you

You too bad to not have bags and heels

I got a spoiling invitation, let me know what it is I know you got wants, I know you got needs

I know you got plans, and I know you got dreams

Know you got a man that you probably wanna leave

But tell me girl, do you know what rubber bands means?

Girl let me spoil you, let me spoil you

Girl let me spoil you, let me spoil you

Girl let me spoil you, let me spoil you

Girl let me spoil you, let me spoil you Wait a minute, hold it now

Whatcha doing ma

Chances I had plenty I know

Just give me uno mas

Never accept advice from people who ain't as cool as us

Got nothing to do with us, let's keep us between the two of us

Because, if they could switch with you they would

If hurting you benefited them, don't think they won't do it

Well screw it

Know you can't tell a nigga nothing

When they think someone is something and they turn out to be nothing

No matter how I try I go in and go off

She yellin, "fuck me harder", cum again in her mouth

From the car to the door, to the bed, to the couch

Tell her fuck that nigga take this dick  
Girl this my pussy now I know you got wants, I know you got needs  
I know you got plans, and I know you got dreams  
Know you got a man that you probably wanna leave  
But tell me girl, do you know what rubber bands means?  
Girl let me spoil you, let me spoil you  
Girl let me spoil you, let me spoil you  
Girl let me spoil you, let me spoil you  
Girl let me spoil you, let me spoil you You wanna get spoiled  
Then I will make that happen  
But its gon' be other broads  
I must admit it I'm ratchet  
I turn that Micheal Kors watch to a Rollie right quick  
This a golden opportunity you better not miss  
Ace of Spades  
We can drink like Kool-Aid, let's do it  
You need to listen to ya girl who saying, "Just do it"  
I'm gon spoil you tight, call you like  
"Got a 1st class flight, come ball with me tonight"  
But you gon have to come and give it all to me tonight  
Diamonds all over you will make you shine bright  
You got big dreams, then I can help you out fa'sho  
It ain't what you do, but who you know  
So let's go girl I know you got wants, I know you got needs  
I know you got plans, and I know you got dreams  
Know you got a man that you probably wanna leave  
But tell me girl, do you know what rubber bands means?  
Girl let me spoil you, let me spoil you  
Girl let me spoil you, let me spoil you  
Girl let me spoil you, let me spoil you  
Girl let me spoil you, let me spoil you
