

Good Time Comin' On

Chuck Wicks

Tryin' to keep my eyes on this windin' road
Oh, but it ain't easy with you paintin' your toes
With your feet up on the dash, your legs so long and tan
You're my Dixie girl with a summer smile
Oh, just enough sweet but just enough wild
Oh, it's just that kinda day everythin's goin' our way
We've got the sunshine, the coolers in the back
All day and all night, we'll see where this might go
We can drive real fast, girl while we take it slow
We've got the warm breeze blowin' off the coast
One hand on your knee, yeah we're gettin' close
I feel a good time, I feel a good time comin' on
Got a sleepin' bag thrown in the back
Oh, just in case it comes to that
With any luck this might end
At a campfire bound by the river bend
We've got the sunshine, the coolers in the back
All day and all night, we'll see where this might go
We can drive real fast, girl while we take it slow
We've got the warm breeze blowin' off the coast
One hand on your knee, yeah we're gettin' close
I feel a good time, I feel a good time comin' on
Strong as anythin' could be
How could this be wrong girl when we both agree?
We've got the sunshine all day and all night
We've got the sunshine, the coolers in the back
All day and all night, we'll see where this might go
We can drive real fast, girl while we take it slow
We've got the warm breeze blowin' off the coast
One hand on your knee, yeah we're gettin' close
I feel a good time, I feel a good time comin' on
I feel a good time
I feel a good time
I feel a good time
