The Heat Of Your Love

Institute

In the way that you state your feelings
No matter the cost
How you separate all the cliches
Still you get so lost
But I wish I was wrong, wish I was wrong
There has never been anyone like you for me
There has never been anyone like you for me
Way down
Way down in the heat of your love
I'm my best side
Deep fried in the heat of your love
I've been waiting impatiently
Searching dead lands
You've been gone for days now
To the temporary monkey center
I wish I was wrong, wish I was wrong
There has never been anyone like you for me
There has never been anyone like you for me
Way down
Way down in the heat of your love
I'm my best side
Deep fried in the heat of your love
As fast as you can
Deep fried in the heat of your love, well
In the way that you state your feelings
No matter the cost
For the time you were beyond perfection
No matter
Way down
Way down in the heat of your love
I'm my best side
Deep fried in the heat of your love
As fast as you can
Deep fried in the heat of your love
In the heat of your love
We're so stupid, oh, so stupid
Lay me down in the heat of your love
We're so stupid, oh, so stupid
Lay me down in the heat of your love
