Firebreather

Running Wild

Three days of darkness, eternal night
Celestial sign swallows up the light
A raging storm, Armageddon's here
The enslaved's hope is the evil's fearHe rides the wind on silent wings, laser beams ripping steel
Black helicopters go up in flames, before they know that he's realFirebreather, raging from the stormy sky
Firebreather, smoke and thunder steal the light awayBlack soldiers walk the gates of hell
They drop their mask, they come off their shell
Minotaurs and genetic beasts
Invade the world with a bloody feastHe rides the wind on silent wings, laser beams ripping steel
Black helicopters go up in flames, before they know that he's realFirebreather, raging from the stormy sky
Firebreather, smoke and thunder steal the light awayMan in black your time is up
Universal law, you're outta luck
No dirty tricks, no unfair fight
He shoots your head off with his first strikeHe rides the wind on silent wings, laser beams ripping steel
Black helicopters go up in flames, before they know that he's realFirebreather, raging from the stormy sky
Firebreather, smoke and thunder steal the light away
