

# Lullaby

**Stevie Frank**

The summer sun sets in your eyes when you hold my hand i can feel it there's a new love in disguise burnin'  
brighter than the northern colored lights I'm gonna love you every day and every night my lullaby you're my  
lullaby so sing with me tonight oh and be my lullaby be my lullaby that's all I need tonight maybe time will let  
us stay a little longer before the brand new day and tomorrow with more time on our side yet another sunset  
comes around for you and I my lullaby my lullaby so sing with me tonight oh and be my lullaby be my lullaby  
that's all I need tonight ah you're my lullaby you're my lullaby so sing with me tonight and be my lullaby be  
my lullaby that's all I need tonight
