

Heaven Knows

Luther Vandross

Heaven knows I love you
Heaven knows how much I care
Couldn't live without you
Look for me and I'll be there But even though you're a joy to me
I think you think, "He's a bore to me"
What you think, am I still your guy?
I'm so confused, my darling, I could die You're the one on my mind
Got me working overtime
I only think about love and you
Talk to me, don't be shy
Heaven knows I really try to love you
I try to love you Used to be amazing
Used to make the world say 'Wow'
Heaven brought us together
That's how I know it'll all work out We built our love on a solid ground
And can't a thing ever bring us down
Back together like we wanted to
Forget me not 'cause I remember you You're still the one on my mind
Love is working overtime
I only dream about love and you
Talk to me, don't be shy
Heaven know I really try to love
I try to love you, yeah You're the one on my mind
Got me working overtime
I only think about love, don't you?
Talk to me, don't be shy
Heaven knows I really try to love you
I try to love you, baby This is love that you can't ignore
I never knew a girl like you before
And Heaven knows I couldn't love you more
This is so right, baby yea
This is so right, yea, yea, yea
This is so right, baby, yea
Because I love you
I really love you, baby Back together like we wanted to
Forget me not 'cause I remember you You're the one on my mind
Got me working overtime
I only think about love, don't you?
Talk to me, don't be shy

Heaven knows I really try to love you
I try to love you, girl You're the one on my mind
Got me working overtime
I only think about love, and you?
Talk to me, don't be shy
Heaven knows I really try to love you
I try to love you, baby Work, it can work
Gonna work out, gonna work out
Work, it's gonna work
Gonna work out, gonna work it out
Work, its gonna work, yea 'cause I love you
Honey, Heaven knows and I know it can
Work, it can work
Gonna work out, gonna work out
Work, its gonna work
Gonna work out, gonna work it out
Work, its gonna work, yea 'cause I love you
Ooh and Heaven knows and I know it can
Work, it can work
Gonna work out, gonna work out, honey
Work, its gonna work
Gonna work out, gonna work it out, baby
Work, its gonna work, yea 'cause I love you
And Heaven knows and I know it can
