

Deadman's Gun (From "Red Dead Redemption")

Ashtar Command

Your hands upon
A deadman's gun, and you're
Lookin' down the sights Your heart is warm
And the seams are torn, and they've
Given you a reason to fight And you're not gonna take, what they've
Got to give
And you're not gonna let 'em, take your
Will to live
Because they've taken enough
And you've given them all you can give
And luck won't save them tonight
They've given you a reason to fight And all the storms you've been chasin'
About to rain down tonight
And all that pain you've been facin'
About to come into the light Your hands upon
A deadman's gun, and you're
Lookin' down the sights Your heart is warm
And the seams are torn, and they've
Given you a reason to fight And you're not gonna take, what they've
Got to give
And you're not gonna let 'em, take your
Will to live
Because they've taken enough
And you've given them all you can give
And luck won't save them tonight
They've given you a reason to fight And all the storms you've been chasin'
About to rain down tonight
And all that pain you've been facin'
About to come into the light
