

Supernature (Daniel Miller & Phil Legg mix)

Erasure

Once upon a time
Science opened up the door
We would feed the hungry fields
Till they couldn't eat no more
But the potions that were made
Touched the creatures down below
And they grew up in a way
That we'd never seen before[Chorus]
Supernature, supernature
Supernature, supernature They were angry with the man
Cause he'd changed their way of life
And they take their sweet revenge
As they trample through the night
For a hundred miles or more
You could hear the people cry
But there is nothing you can do
Even God is on their side[Chorus] Gods will break the ice, and throw it in the air
The creatures will decide who goes where How can I explain?
Things are different today
Darkness all around, no one makes a sound
Such a sad affair, no one seems to care[Chorus] Better watch out, there's no way to stop it now
You can't escape, it's too late
Look what you've done
There's no place that you can run
The monsters made, we must pay Maybe nature has a plan
To control the ways of man
He must start from scratch again
Many battles must he win
Till he earns his place on earth
Like the other creatures do
Will there be a happy end?
Now that all depends on you[Chorus: x2]
