

Parliament Hill

Magna Carta

Nothing to do but watch the clouds go sailing by
thinking of you see you walking in my mind
and all the doubts are left behind the sunshine if you come to Parliament Hill for a while to look and see
Head in the grass watch the sky above me turn to blue
I never knew living is so easy when you
leave the things behind that bring you down if you come to Parliament Hill for a while to look and see
children by the seat flying kites in the wind
know nothing much at all of you and me
pulling on the strings of the faces in the sky
floating high up in a world you cannot see and you should know I like you near me all of the time
so don't ever go you are all I need to know
and all I need to know is what is mine
if you come to Parliament Hill for a while to look and see
if you come to Parliament Hill if you come to Parliament Hill would you come with me
