Dagger

Slowdive

The sunshine girl is sleeping
She falls and dreams alone
And me I am her dagger
Too numb to feel her painThe world is full of noise, yeah
I hear it all the time
And me, I am your dagger
You know I am your worldI thought I heard you whisper
It happens all the time
I thought I heard you whisper
It happens all the timeShe whispers while I'm sleeping
I love you when you smile
I didn't really lose you
I just lost it for a whileThe world is full of noise, yeah
I hear it all the time
You know I am your dagger
You know I am your worldI thought I heard you whisper
It happens all the time
I thought I heard you whisper
It happens all the time
