

North

Dirty Gold

This house is of a different color but that does not make it a mule
And It's time to rock the process slowly me is yours no longer mine
Black and blue, what else am I to do?
Inside the hmm(?) of time
Because of you my back is close to breaking
Sweet chariots won't you sweep me up off my feet
And take me to the north
Take me to the north
Please take me to the north
Take me to the north
Take me to the north
Please take me to the north
Take me to the north
