Guilty

Tora Tora

Lonely nights out on the run
Can't beat the heat of a smokin' gun
Moonlight in the mirror
As the city sleeps, death over meIt's been a long hard road
I can't fight it, it's out of control
Somebody save meRunnin' for my life, it's hangin' by a thread
I can't get any closer to you yet
Hard luck's knockin' on my back door
It's easy to see why they're comin' for me
'Cause I'm guilty, guilty, guilty in the first degreeCan't get the chip off my shoulder
Just eighteen but I feel the choker
One bad trip changed my life
I've been doin' wrong, now I come on strongI let each day pass
In the shadow of the last
Somebody save meRunnin' for my life, it's hangin' by a thread
I can't get any closer to you yet
Hard luck's knockin' on my back door
It's easy to see why they're comin' for me
'Cause I'm guilty, guilty, guilty in the first degreeJust another fallen angel
With a will to survive
I don't know where to go
No where to run, no where to hideI'm guilty, yeah
I'm guilty
Guilty, you know I'm guilty
Guilty, oh yeah
Guilty, guiltyRunnin' for my life, it's hangin' by a thread
I can't get any closer to you yet
Hard luck's knockin' on my back door
It's easy to see why they're comin' for me
'Cause I'm guilty, guilty, guilty in the first degreeRunnin' for my life, it's hangin' by a thread
I can't get any closer to you yet
Hard luck's knockin' on my back door
It's easy to see why they're comin' for me
'Cause I'm guilty, guilty, guilty in the first degree
