

For A Better Day

Avicii

Hurt
On caution weep
With bleeding sky
I called you name
There was no one there
And in the cold and snow
I saw your face And I sang the song for the little things
Magic call, but the joy you bring
Running it down the line
Wish you could find that love is a fragile thing
Magic call from a pretty thing
Maybe it might be time
For a better day
For a better day
For a better day Straight, from the path of love
In the road of life
I tumble forward
But going on, I'ma keep it strong
I saw your face And we sang the song for the little thing
Magic call, but the joy you bring
Running it down the line
Wish you could find that love is a fragile thing
Magic call from a pretty thing
Maybe it might be time
For a better day
For a better day
For a better day
For a better day
For a better day
For a better day
