Simple Boy

Poyzer

I'm high above the world
Why should I feel pain
Or feel alone
To be protected like a simple boy
If I choose to let you down
Begin to know

You're free to go
You're free to go

I will fight until there's nothing left
Cross the world together from this sinking ship
Or drown alone
Off the coast
Facing nothingness
Drawn to feel the emptiness
Oh help me now
Describe the scene

You're free to go
(We'll face these things some other day)
You're free to go
(I won't leave you you're not ok)
You're free to go
(We'll face these things some other day)
You're free to go
(I won't leave you you're not ok)

Simple boy, stay here
Simple boy, don't wander
Simple boy, you're safe here
Simple boy, simple boy

So when did we lose the plot
Were running against the clock
Don't hesitate
Or you will never know

Simple boy, you're free to go
Don't wander, you're free to go

Simple boy, you're free to go
You're safe here, you're free to go
You're free to go
You're free to go
My simple boy, my simple boy
My simple boy, my simple boy
