

# Summon the Antichrist

## Akercocke

Master, take wing over the desert  
And parched land  
Master the art of suffering

A divine dance Summon the master Mouth incendiary evocation  
Black flame engulfs  
Filth and maggots of humanity

Hair burning, faces melt Summon  
Master The inexhaustible beauty  
The incomparable gift

Satan has made to the human race

In his only child, antichrist Mouth incendiary evocation  
Black flame engulfs  
Filth and maggots of humanity

Hair burning, faces melt Obscene ritual  
Totems sacrosanct

Divine Baphomet Worship the Goatlord  
Divine Lucifer

Worship the Goatlord Swarming, the spirits of the pit  
Infernal, arise from the abyss

Absonant, within the Pentagram

Ritually summon the Antichrist The wings of the master
