Built to Spill

Morning comes and I'm up on time again
Upon getting up and I'm down on what I got up for
 Boring, dumb, and fine
 It's been a long time my friend
 You haven't changed, neither have I
 So why you want to bring that up

I feel it started at the source

What is it that makes you cry and why?

When you see a documentary and know the outcome
 And that it's fucked
 You still hope Hitler will blow up
 And that Kennedy will duck

I feel it started at the source
